 or Christine's Office

Agenda

- Updates –staff communications with state staff, ag kick off meeting
- Managers' Updates – cover letter & closing the gaps document status, exchange of letters, etc.
- Proposed Email for Forestry Kick Off meeting*
- Other?

***Proposed Email**

Hi All,

EPA/NOAA would like to set up a meeting with Oregon DEQ, ODF and DLCD during May in Portland to begin the conversation on what Oregon needs to do in order to address the gaps in its Forestry program to ensure the adequacy of Oregon's forestry programs and policies for meeting the 6217(g) additional management measures for forestry.

Please complete the doodle poll below and be sure to check to make sure the time zone is correct.

{link}

Please pass on this link to anyone I have missed.

We'll be sharing a draft agenda for review in the near future.

Background

As you may be aware, EPA and NOAA developed and shared with the Governor's Office and senior management of DEQ and ODF a document titled "Options for Closing the Gap on Forestry Management Measures." This document provides an overview of some of the options Oregon could consider to close the gap and develop additional management measures for forestry. It is designed as a starting point for further conversations among NOAA, the EPA and relevant state agencies to help achieve this goal. This document describes how Oregon may choose to strengthen and expand its forest management measures within its coastal nonpoint management area in ways that will achieve a healthier, more resilient coastal environment and meet CZARA statutory objectives.

During this spring and summer, the federal agencies plan to work with relevant state agencies to assist the State in developing a plan to address the gaps in forestry. Ideally these conversations would lead to the development of a more detailed strategy, complete with interim milestones and expected dates for meeting those milestones that Oregon would then provide to NOAA and EPA by fall 2015. This meeting serves as a kick off for this effort.

Regards,
